ORDER FORM FOR FACTORY ASSEMBLED INSULATED ROOFLIGHTS (FAIRs)

DUE TO MANUFACTURING TOLERANCES WE DO NOT RECOMMEND THAT MORE THAN THREE FAIRS ARE FITTED IN A CONTINUOUS RUN ACROSS THE ROOF WIDTH

All prices include standard 50mm wide filler blocks, wider filler blocks are available at an additional cost. When calculating number of spans required, please consider that all units must have a filler block either end of the unit (this acts as an end closure).

USAGE INSTRUCTIONS:

The drop-down above allows the choice of 1 to 9 span units.

The results in the grey boxes are automatically calculated from the spans and the cut backs.

Boxes highlighted with a red edge are fields that we require you to fill out. All others are optional.

When all fields are complete please use the 'Lock Fields' button to prevent any accidental loss of your information. To make amendments just unlock the fields for further use.

After completing this form, please save the document with a different file name for each span page to be completed.

If the form is to be manually completed, click the 'Remove Fields' box which will allow blank form printing.

it is important to concisely complete all fields correctly to avoid any delay in processing your order.
